Line art (to color)

Color reference

Line art (to color)

Color reference

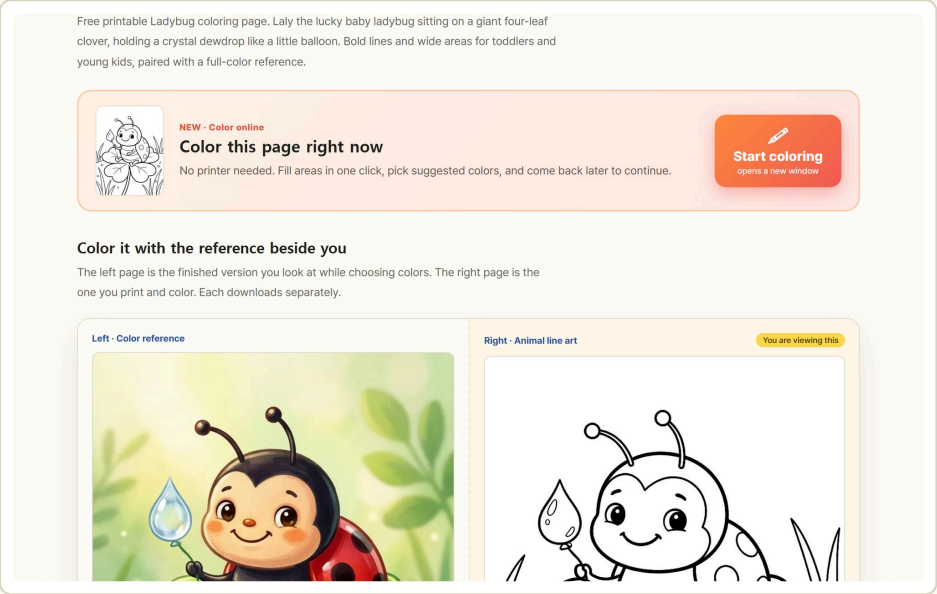

Every page comes as a pair: line art and color reference

colorbookpage.com

SERVICE

Pick a page, then print it or color it right on screen

Preparation takes one choice. Print and color with crayons, or fill in colors on a PC screen, then save the finished picture as an image or print it.

A page's detail screen. The finished version (color reference) and the line art appear as a pair, and [Start coloring] opens on-screen coloring.

1 **Line art and color reference as a pair**

Every page comes as black-and-white line art plus a finished example (color reference). Use it when choosing colors is hard; children do not have to copy it.

2 **Download as PNG and print on A4**

Download the image from the page's detail screen and print it right away. Print as many copies as your class needs.

3 **Color and save on a PC**

[Start coloring] opens a coloring window in a new tab. It runs in a web browser with nothing to install. The next page explains how to use it.

4 **Available in 5 languages**

Korean, English, Español, Français and 日本語. Handy in multilingual classrooms.

Pages by theme

800+ pages in total · 26 series

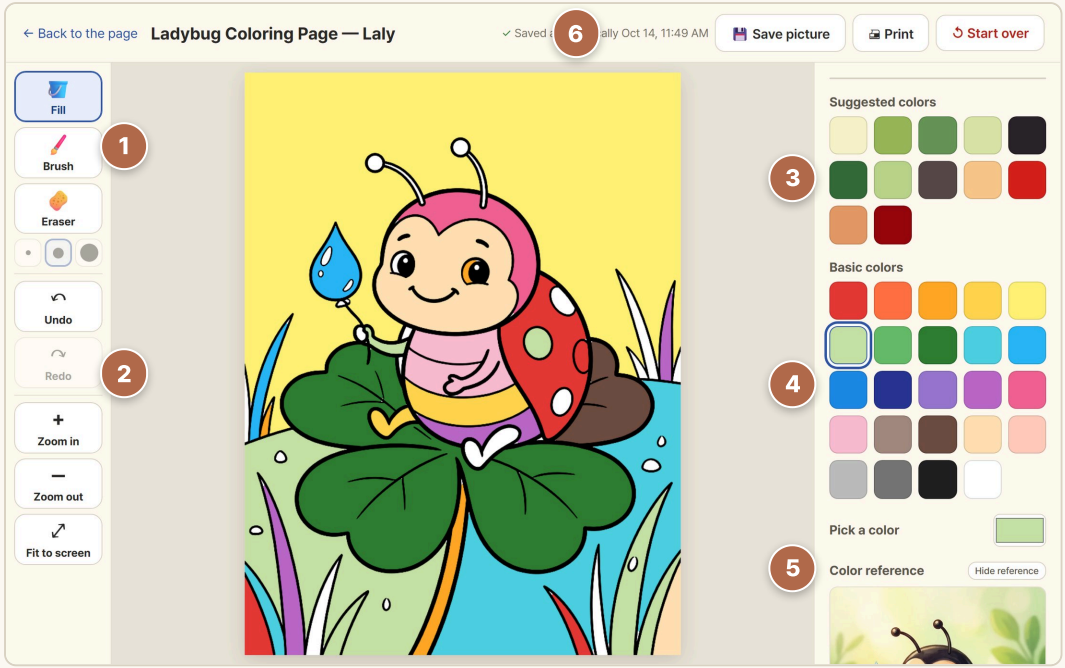

Animal friends	168	Cars, trucks & vehicles	135
World (flags, landmarks, maps)	130	Dinosaurs, dragons, space, legends	80
Bible stories	45	Princess & castle stories	40
Sports	36	Job characters	32
For adults (Korea's twelve months)	24	Science & inventions	20

All images are made with AI image tools and reviewed by people.

ONLINE COLORING

How to color on a PC screen

Press [Start coloring] to open the coloring window in a new tab. Color on screen with no printer, then save the picture.

The service's real coloring screen (PC web browser).

1 **Tools**
Fill fills a closed area in one click. **Brush** paints freely and **Eraser** removes only the color. Brush size has 3 levels.

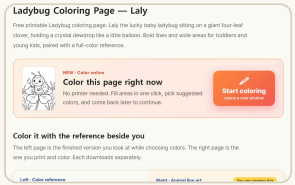

2 **Undo and view controls**
Fix mistakes with **Undo / Redo**, and use **Zoom in / Zoom out** to work on small areas.

3 **Suggested colors**
Colors that suit this page are gathered for you. Start here when you are not sure what to pick.

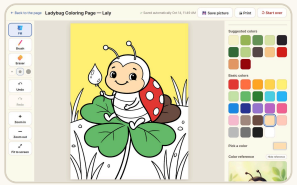

4 **24 basic colors and Pick a color**
Choose from the palette, or make any color you like.

5 **Color reference**
Keep the finished example beside the canvas while you color. Hide it when you do not need it.

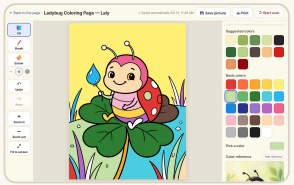

6 **Save, print, start over**
When finished, use **Save picture** to get an image file, or **Print**. A picture in progress is saved automatically on this device, so you can continue later.

1. Start
On the page's detail screen, press **[Start coloring]**.

2. Color
Pick a color, then click an area to fill it in one go.

3. Save
When finished, press **[Save picture]** or **[Print]**.

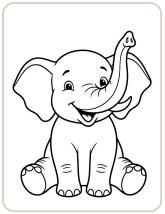

Shortcuts: F Fill · B Brush · E Eraser · Ctrl+Z Undo · Ctrl+Y Redo · Space+drag to move · mouse wheel to zoom | The screen is currently designed for PC with a mouse; a tablet version is on the way.

USE CASES

Ideas for lessons and activities

Nursery · ages 3–5 — Free coloring, 15–20 min

Color big areas first, then talk about it

1. **Choose** Prepare a page with one large animal.
2. **Set the tone** Tell them first: “It is fine to go outside the lines.”
3. **Color** With thick crayons, fill big areas first in colors the child picks.
4. **Talk** Keep it going with “Where does this animal live?”

Thicker lines, larger areas and fewer small details make a page easier.

After-school class · lower elementary — Flag lesson, 40 min

Learn country names and what colors mean by coloring flags

1. **Warm-up 5 min** Show your own country’s flag and ask about it.
2. **Color 20 min** Keep the color reference beside you and color the line art.
3. **Find the country 10 min** Locate it on a world map and add a sticker.
4. **Talk 5 min** Share what the colors and patterns tell you.

Continue with 30 flags, 60 landmarks and 40 country maps.

Career exploration · role play — 30–40 min

Guess the job from its tools, then color

1. **Warm-up** Guess the job from a hose, a stethoscope or a frying pan.
2. **Color and talk** “What would this person wear?”
3. **Role play** Stick colored pages on sticks as puppets.
4. **Wrap-up** Gather the pages into an “our neighborhood job map”.

32 job characters. Tell children any color is fine.

Art studio · color experiments — 40–50 min

Color the same line art in different ways and compare

1. **Study** Look at how colors are used in the color reference.
2. **Try on screen** On a PC, alternate between suggested colors and others.
3. **Move to paper** Transfer the combination you like with crayons or paint.
4. **Compare** Place different versions side by side and talk about them.

Undo makes it easy to try many color schemes without worry.

Seasons & events 10 autumn and 10 winter scenes for comparing leaf colors, making garlands and cards from colored pages, and classroom displays.

GET STARTED

Start right away, and write to us if you need

How to start

1. **Visit**
   Choose your language at colorbookpage.com.
2. **Choose a page**
   Browse by series, theme or age, or search.
3. **Print or color**
   Download the image and print it on A4, or press [Start coloring] to color on a PC screen.
4. **Contact us if needed**
   For group use, page ideas, error reports or partnerships, send us an email.

Before class: prep and printing

- Choose by theme and level, and bring one easier and one harder page.
- Open the PNG and print on A4 with “fit to page” in black-and-white for crisp lines.
- Crayons and pencils work on plain copy paper; water-based markers or paint need 100 g or heavier paper; cut-and-paste needs 120 g or heavier.
- Some series have lower resolution than A4, so printing at A5 looks sharper.

Usage

Allowed

- Print as many copies as needed for classes at schools, nurseries and academies, and hand them out
- Use pages inside your own lesson material, or in free programs at libraries and community centers
- Post finished pictures on a blog or social media

Not allowed

- Selling the files, or redistributing them on other sites or marketplaces
- Making paid ebooks or printed collections, or printing on merchandise for sale
- Using the images as AI training data

Other uses can be discussed.

FAQ

Do children have to copy the color reference?
No. It is just a reference for when choosing colors is hard. Color however you like.

Is there a PDF?
Currently images are provided as PNG. Print them as they are.

Can we color on a tablet?
For now the screen is designed for PC with a mouse. A tablet version is on the way.
